Also possible:

- ✓ zero grant participants
- ✓ participants with special needs

Travel support for students and staff calculated by the Distance calculator:

<b>Incoming</b>	Eligible Partner Countries	Programme Country (Croatia/Group 2)	<b>800 EUR</b> per month
<b>Outgoing</b>	Programme Country (Croatia)	Partner Countries	<b>650 EUR</b> per month

## Individual support - staff

Amount per participant per day:

**≤14 days** =reference rate

**OS** is a contribution to any cost incurred by the institutions in relation to activities in support of student and staff mobility, **both incoming and outgoing**, to comply with the ECHE and inter-institutional agreements between Programme and Partner Countries. **Eligible costs** are costs directly linked to the implementation of mobility activities (excluding participant subsistence and travel).

Financing mechanism = unit costs - **amount per participant** (based on the number of participants)

**≤100th participant: 350 EUR**

# Quality assessment

## Quality assessment

Unlike intra European mobility (KA103), mobility projects between Programme and Partner countries undergo qualitative evaluation:

- possibility to apply for more than one region (in one application only)
- linked to internationalization strategies
- cooperation with each country will be assessed separately

## Award criteria

- ✓ Relevance of the strategy (max 30 points)
- ✓ Quality of cooperation arrangements (max 30 points)
- ✓ Quality of the activity design and implementation (max 20 points)
- ✓ Impact and dissemination (max 20 points)

The applicant will explain how the project meets these 4 criteria from the point of view of its own institution and the Partner countries' institutions

To be considered for funding the proposal must score  
**at least 60 points in total**  
with  
a minimum of 15 points for the RELEVANCE OF THE STRATEGY

### Evaluators check:

- eligibility of all mobility flows
- budget restrictions

### Evaluators assess:

- four quality criteria per Partner country

### Evaluators recommend:

- retention or reduction of the entire mobility flow/only certain flows

### Evaluation committee decides:

- which projects are funded taking into account geographical balance

## Do's and don'ts for applicants

## DO

- ✓ **Explain why you want to foster mobility.**  
Attract talent? Research purposes? Opportunities for staff development? Etc.
  - ✓ **Explain the preference given to a certain region/country.**  
Is there any institutional policy favouring the cooperation with this region/country? Is there particularly strong faculty cooperation with a specific HEI?
  - ✓ **Explain why the mobility project is relevant to your institution's internationalisation strategy.**  
Does your internationalisation strategy focus on building partnerships in education, innovation and research? Is the choice of the partner institution made for strengthening cooperation? How?
  - ✓ **Explain why the planned mobility project is relevant to the internationalisation strategy of the partner institution(s).** Please contact your partner(s) to find out.
  - ✓ **Try to provide 'quantifiable information' on the profile of selected partners.**  
Size and influence in a particular area? Complementarity of faculties/departments involved? Similarity of study programmes?
  - ✓ **Try to distinguish the specific aims for choosing mobility of students and/or staff.**  
Do you need to strengthen the partnership before sending students? Build mutual trust? Ease the recognition process? Staff mobility might be the way to start.
  - ✓ **Keep it short and simple, but make sure that you get all your points across.**
- In case of new cooperation agreements, also:
- ✓ **Explain why building cooperation with a new region/country is relevant for all the institutions involved.**  
Diversification of your AND your partner's internationalisation strategy?
  - ✓ **Explain the complementarity of your and your partner's institutions.**

# Quality of the cooperation arrangements

## DO

- ✓ **Explain the division of competences which has been agreed with your partner, as outlined in the Inter-institutional Agreement.**  
Who offers which courses and when? Who provides support for visa/insurance/accommodation? Who is in charge for the selection and/or evaluation of participants? What will the students/staff have to do? Etc.
  - ✓ **Detail how the finances will be split between you and your partner, if applicable.**  
Will you share the Organisational Support grant? Will you provide funds in addition to the EU grant?
  - ✓ **Explain how communication channels will work between you and your partner.**  
Who is responsible for the paperwork? How will you monitor and report on the mobilities? Beware that you will have to report on mobilities in the EU's Mobility Tool+ on a monthly basis.
  - ✓ **Make sure that you and your partner have the financial and operational capacity to carry out these activities.**
  - ✓ **Explain similar previous experience and what this means for future cooperation.**  
If you have previous experience with institutions in the Partner Country chosen, explain how this application builds on and enhances existing partnership arrangements?
- In case of new partnerships, also:
- ✓ **Explain how previous international cooperation experience will be used to develop new partnerships.**
  - ✓ **Provide information about your institution's experience in implementing credit mobility in general (between Programme Countries or between Programme & Partner Countries).**

# Quality of the project design and implementation

## DO

- ✓ **Try to organise this section around the 3 phases of the mobility period: Before, During & After.**  
What is offered to the students/staff during the different phases? By whom?
- ✓ **For outgoing mobility to countries in regions 6, 7, 8, 10 and 11, consult your National Agency to see whether it is eligible.** Outgoing mobility to these countries is eligible only at doctoral level or for staff, unless your National Agency has made additional funds available. If so, specify the number of students and total duration per study level (e.g. 3 BA students to Cape Town University for a total duration of 18 months and 2 MA students for 24 months).
- ✓ **Mention the completeness and quality of arrangements for the selection, support and recognition, both at your institution and at the partner institution.**  
How will the participants be selected? Will they receive support for insurance/visa/housing? What kinds of facilities are available to the participants (libraries etc.)? How many credits or equivalent units will they receive? Etc.
- ✓ **Try to address the additional support for disadvantaged people, language training, cultural integration activities, etc. - if planned.**  
Will participants receive language courses? Will there be social and integration activities? How will participants from disadvantaged backgrounds or with special needs be encouraged to participate?
- ✓ **Give an indicative timeline for each activity.**  
When will the participants be selected? When will they receive language training? For how long? When will their mobility periods be recognised? Etc.

## DO

- ✓ **Explain the impact and outcomes of the mobility project on the different stakeholders.**  
What is the expected impact on the participants (e.g. what skills will they acquire)? What is the expected impact on your institution? What about your partner institution(s)?
- ✓ **Explain the impact at local/regional/national level, including in the Partner Country.**  
How will the outcomes be measured and evaluated? How will you know whether you have achieved the desired and expected impacts?
- ✓ **Describe what dissemination activities you intend to carry out and through which channels.**  
Do you have means to measure success and disseminate results (e.g. publications, surveys, newsletters, alumni networks etc.)? If not, how will you develop them? Will you work together with your partner?
- ✓ **Explain who will benefit from the dissemination of project results.**  
Will you keep the dissemination activity at the faculty/university level only or go beyond? What about your partner?
- ✓ **The stated impact should be relative to the number and type of activities planned.**  
While sending a Bachelor's student to a Partner Country might have an impact on the individual, it will hardly have a regional or national impact. But perhaps a focussed exchange of staff in a particular faculty is embedded within a strategy of developing joint curricula or joint research projects.

- Do not be too generic in your answers
- Do not focus only on your home institution, but describe what is in it for your partner and what the common benefits are
- Do not copy-paste. If some parts of your answers are the same for each Partner Country or institution, answer them only once and refer to your first answer throughout the application
- Do not give the same information in part 2 and 3
- Do not forget to mention recognition for staff mobility. How will the home university capitalise on the experience abroad that their staff has undertaken?
- Do not understand "desired impact" as what you wish to have as impact, but as what you can actually implement as a result of the mobility activities
