Introduction

What is the Mobility Tool+?

Mobility Tool+ is an Information System that allows Erasmus+ Beneficiary Organisations to access and manage their project's information, request individual participants' reports and submit final reports to their National Agencies. Erasmus+ National Agencies also use Mobility Tool+ to monitor and validate the projects information entered by Beneficiary Organisations at any time from anywhere.

Mobility Tool+ is designed, developed and maintained by the European Commission being used by Erasmus+ Beneficiary Organisations and National Agencies involved in decentralised projects.

What are KA1 and KA3 mobilities?

Each Erasmus+ key action is divided into different action types depending on the intended programmes objectives and target groups. Activity types therein further divide such action types into homogeneous groups of participants encoded as mobilities within Mobility Tool. Mobilities represent the sending of a particular individual from an origin country to a destination country typically within the set of Erasmus+ programme countries. Depending on the activity type concerned each participant in an Erasmus+ mobility is entitled to receive funds for travel, individual support, special needs, exceptional costs, etc. Mobility tool allows Beneficiary Organisations to manage all this information in a coherent and meaningful manner.

What about KA2 Strategic Partnerships?

Strategic partnerships' projects are also supported by Mobility Tool. Although not managing pure mobilities such projects need to be managed in terms of the outcomes and results they produce especially for those projects mostly concerned with development of innovation. Therefore Mobility Tool provides all needed functionality to create and manage a KA2 project allocation of funds for project management and implementation, transnational project meetings, intellectual outputs and associated multiplier events and individuals participating in learning, teaching and training activities, the latter mostly relevant for projects targeting exchanges of practices. The filling in and submission of final report by Beneficiary Organisations and subsequent validation by National Agencies is also available for KA2.

What are the different roles involved?

The management of the project and its contents is the responsibility of the Beneficiary Organisation users. Contacts defined in the electronic application form as contact persons and legal representatives for the applicant/beneficiary organisation will automatically have access to their corresponding projects in Mobility Tool+ This happens when the project's data is submitted from EPlusLink. National Agency users can also have access to Mobility Tool+ for monitoring and validation purposes.

How to get access to the mobility tool

Contact person from the beneficiary or coordinating organisation

Those persons who are indicated as the project contract person of the beneficiary or coordinating organisation in the National Agencies project management system EPlusLink will automatically be given access to MT+. This is usually the same details as entered in the application form, unless changed during the selection process. The email address associated with this contact person will receive the notification from the system once the project is created in the Mobility Tool. This contact person will be able to create new contacts with or without access to edit the project details in MT+.

Incorrect email address for contact person

If the incorrect email address is used for the project contact person, the National Agency should change the email address in their project management system EPlusLink and resend the data to MT+.

National Agency User

Contact your local MT+ National Agency Administrator (NA Admin) to gain access. If there is no NA Admin please create an issue in NAUAM to nominate a user as a MT+ National Agency Administrator.

Login

This page explains how to log in to [MT+](#) using ECAS. An email notification will be sent to the project contact on creation of the project in the mobility tool.

- [Select the "External" domain.](#)
- [Log In.](#)
- [Password lost?](#)
- [Create a new ECAS account.](#)

Select the "External" domain.

The correct domain must be chosen before logging in. The correct domain for those working in the National Agency or those indicated as the project contact of the beneficiary or coordinating organisation must choose the domain **External**. To change the domain as **External**, click the **CHANGE IT** button.

The screenshot displays the ECAS login interface. At the top, there is a navigation bar with 'Contact | Privacy Statement | English (en)'. Below this is the header 'EUROPEAN COMMISSION AUTHENTICATION SERVICE (ECAS)'. The main content area is divided into two sections. On the left, a blue banner reads 'ECAS authenticates your identity on European Commission websites'. Below this, the European Commission logo is shown with the text 'European Commission' and a question 'Is the selected domain correct?'. A red box highlights a 'CHANGE IT' button. On the right, the login form is visible, featuring input fields for 'Username or e-mail address' and 'Password', a 'LOGIN!' button, and three checkboxes: 'Remember my username', 'Warn me each time an application asks for my identity', and 'View my ECAS account details after logging me in'. Below the login form, there are links for 'Lost your password?' and 'Help'. At the bottom, a section titled 'Log in with your' lists various authentication methods: Password, Mobile phone, Token, Software token, eID, ECAS mobile app, and Token CRAM, each with a corresponding icon.

A list of several options will appear. Select the **External** domain.

The screenshot shows the 'Where are you from?' selection screen. At the top, it says 'Where are you from?' with a blue underline. Below that, a welcome message reads: 'Welcome to the European Commission Authentication Service (ECAS). Choose the institution or body for which you want to log in. Choose "External" if you don't work for a European institution or body. Choose "W+7" if you have a special external account composed of w and 7 digits. If you aren't sure, select the "I don't know?" option for help.'

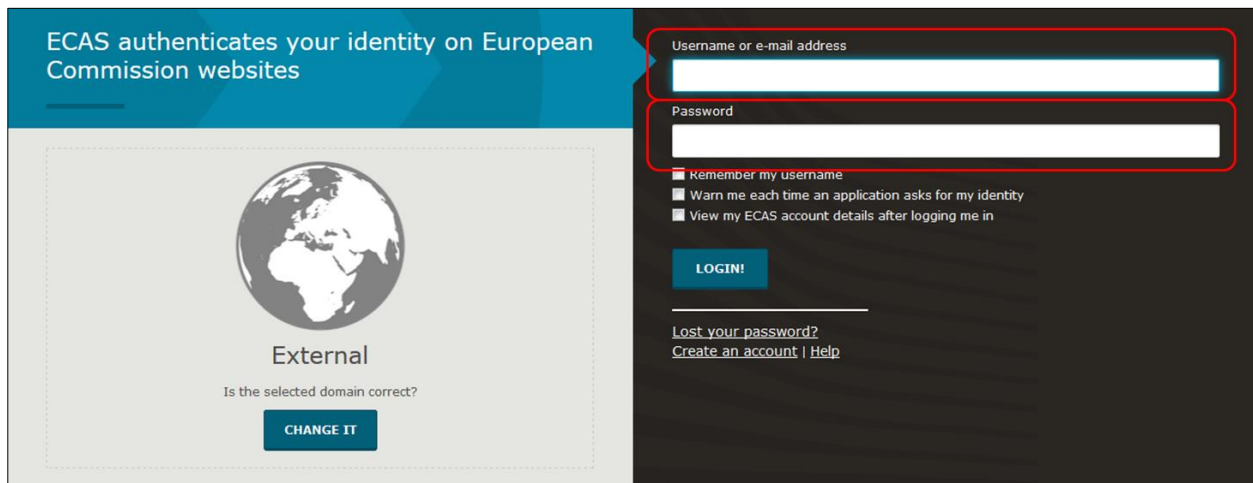

There are four main selection buttons:

- European Commission**: European Commission, Executive Agencies.
- External**: Partners, Researchers, Citizens. This button is highlighted with a red box.
- W+7**: I have an account w + 7 digits. Special external accounts.
- ?**: I don't know? More information about this screen.

At the bottom, there is a 'filter by' section with a 'show all' link and other categories: Institutions, Regulatory Agencies, Joint Undertakings, and Other.

Log In.

Enter your **ECAS Username** or your e-mail address and your **ECAS Password**. This must be the same e-mail address as used by the e-mail notification informing you of your access. If you do not use the same e-mail address, you will not gain access to the project information.

The screenshot shows the ECAS login form. On the left, there is a blue header with the text 'ECAS authenticates your identity on European Commission websites'. Below this, there is a globe icon and the text 'External'. Below the globe, it asks 'Is the selected domain correct?' and has a 'CHANGE IT' button.

On the right, there is a dark grey login form with the following fields and options:

The notification by default is sent out in English and may also be sent out in the language of the National Agency if the translation of interface has been done for that language.

Creation of project in the Mobility Tool

On creation of a project in MT+, a notification will be sent to the project contact person of the beneficiary organisation. The email notification provides instructions on how to login in to MT+ using ECAS. If you do not have an ECAS account follow the instructions to register in ECAS first.

Explanation and illustration

Access to the KA1 or KA3 projects is different than for the KA2 projects.

1. When a KA2 project is clicked from the **Project List**, the system opens a new browser page. Note that projects concerning KA2 are highlighted in blue.
2. When a KA1 or KA3 project is clicked from the **Project List**, the system opens the project directly in the same browser page.

The screenshot shows the 'European Commission Mobility tool' interface. The user is logged in as 'EL01 Greek State Scholarship's Foundation (IKY)'. The main content area is titled 'Welcome ECAS EAC_TRAINING' and contains two project lists. The first list, under the 'Erasmus+' header, has three rows. The first two rows are highlighted in blue and have a red circle '1' next to them. The third row is not highlighted and has a red circle '2' next to it. The second list, under the 'Lifelong Learning Programme' header, has three rows with no highlights. A 'Project List' button is visible in the top navigation bar. Explanation and illustration

The project details such as: the **Project Title**, the **National ID**, the **Start** and **End of Project** cannot be changed in the tool. To request changes to these project details, please contact your National Agency.

It is possible to add and remove **Contacts**, **Mobilities** and **Participants**, as well as to edit the current **Budget** information. See more information about editing details in various **How-to** pages of the guide.

How to manage organisations

For most key actions the organisation details can not be changed in MT+ but should follow the process of an **amendment**.

Organisation details that are entered into [URF \(URF and Participant Protal guide\)](#) should first be updated there before the National Agency will be able to adjust the details in EPlusLink.

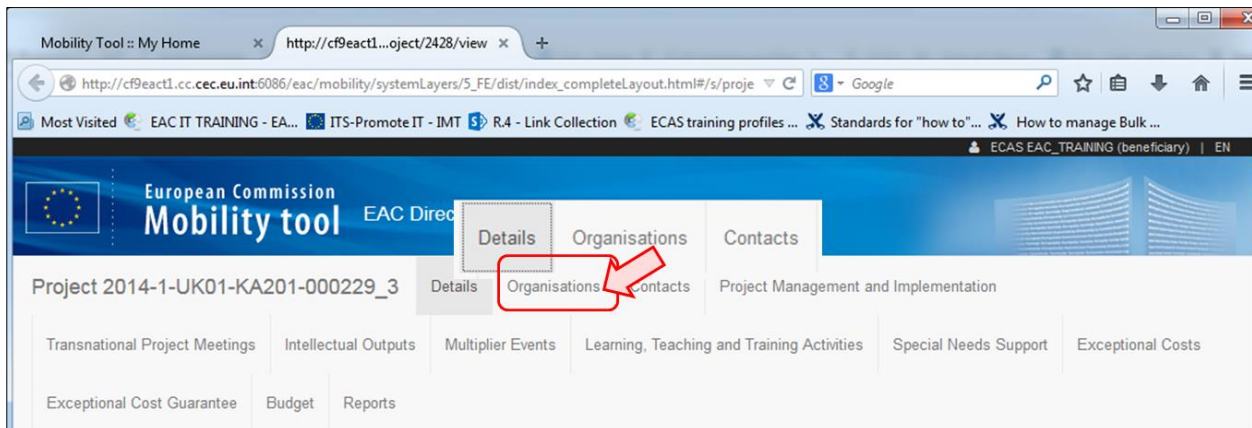

Once changes have been applied, the updated data will be sent to MT+.

The contact person of the beneficiary or coordinating organisation will receive a notification once the updated information is sent to MT+.

Organisation details are not updated?.

The organisation details for most key actions will be updated as a result of an amendment request and should first be updated in URF and then by the NA in EPlusLink.

Edit organisation details.

For certain Key actions e.g. KA103 and KA107 additional organisation details can be **added**. These "host" organisations can be managed by the beneficiary organisation.

In this case additional icons will be present on screen to allow editing (pencil icon) or deletion (bin icon) of the organisation.

Please note that you can not delete an organisation if it is associated to a mobility or activity.

4.2. Allow access to project?

Depending on the organisation you select, several **Access to Project** options (check boxes) may be available. Check the box the option to allow the contact edit or no access to the project details in MT+.

For KA1 and KA3 projects, it is only possible to allow contacts of the Beneficiary organisations edit access.

For KA2 projects (excluding those as indicated as schools only) a contact from a participating organisation may be provided access to view the project but will not have access to edit the project details.

For KA201 indicated as schools only the participant organisations contacts can be given access to view the coordinator's project. The contacts from the coordinating organisation can be given access to view all participating organisations' projects.

4.3. Indicate as "Preferred Contact"?

Checking the box **Preferred Contact** will highlight the contact, in the organisation list, as the preferred person for that organisation. There can only be one preferred contact per organisation. For the beneficiary organisation the preferred contact will receive the automatic notifications when the project data is updated in EPlusLink and resubmitted to MT+ by the National Agency. By default this is the project contact as outlined in the application form but may be changed to a newly created contact for the beneficiary contact person in MT+.

How to manage mobilities for KA1 and KA3 projects

What are KA1 and KA3 mobilities?

Each Erasmus+ key action is divided into different action types depending on the intended programmes objectives and target groups. Activity types therein further divide such action types into homogeneous groups of participants encoded as mobilities within Mobility Tool. Mobilities represent the sending of a particular individual from an origin country to a destination country typically within the set of Erasmus+ programme countries. Depending on the activity type concerned each participant in an Erasmus+ mobility is entitled to receive funds for travel, individual support, special needs, exceptional costs, etc. Mobility tool allows Beneficiary Organisations to manage all this information in a coherent and meaningful manner.

How to manage activities for KA2 projects

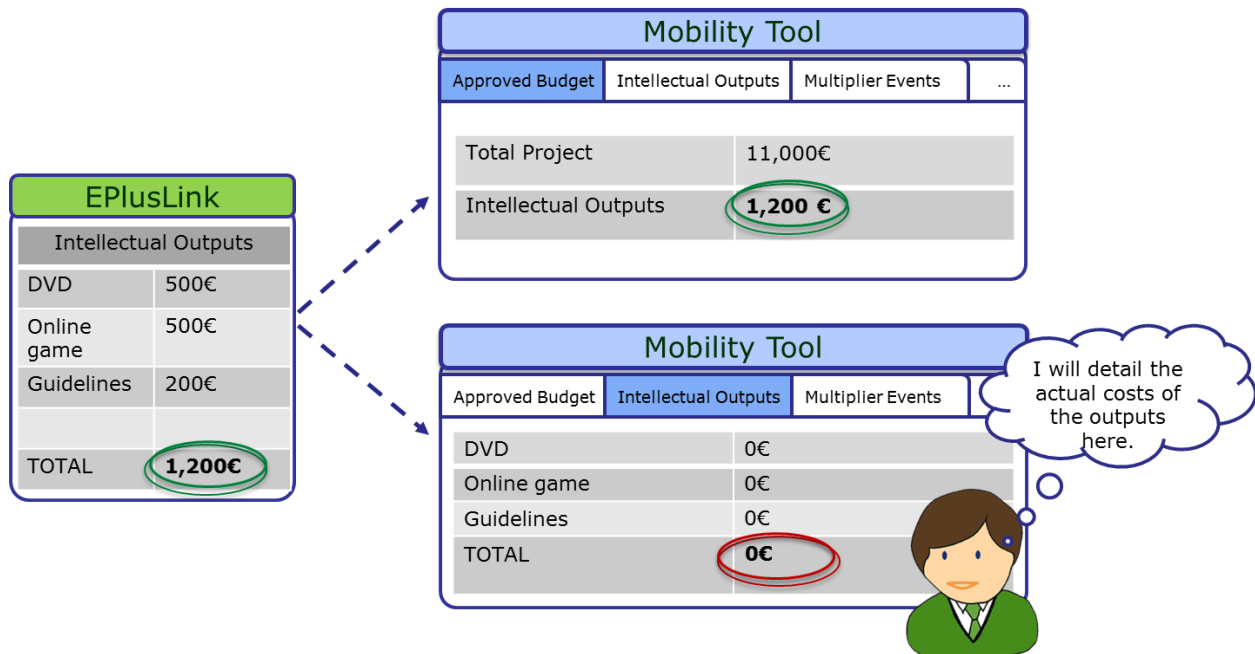

What about KA2 Strategic Partnerships?

Strategic partnerships' projects are also supported by Mobility Tool. Although not managing pure mobilities such projects need to be managed in terms of the outcomes and results they produce especially for those projects mostly concerned with development of innovation. Therefore Mobility Tool provides all needed functionality to create and manage a KA2 project allocation of funds for project management and implementation, transnational project meetings, intellectual outputs and associated multiplier events and individuals participating in learning, teaching and training activities, the latter mostly relevant for projects targeting exchanges of practices. The filling in and submission of final report by Beneficiary Organisations and subsequent validation by National Agencies is also available for KA2.

Project Data

When the project is created in MT+, project information is populated under the various tabs, such as organisations and contacts. The budget approved can be viewed from the budget tab. Details of the activities for Project Management and Implementation (PMI), Intellectual Outputs (IO), Multiplier Events (ME) and Learning, Teaching and training activities (LTT) are listed but do not contain the cost values for these activities. These items can be edited under the respective tabs. These items may be updated by the National Agency as a result of Amendment request or check of grant beneficiary.

Most cost values are calculated automatically in these screens after the number of participants or distance band is entered.

The “Central Rates Web service” is responsible for the validation and calculation of such costs as the travel grant, individual support, organisational support, linguistic support, course fees unit, all top-ups and total amounts. This allows to keep validation rules and calculation formulas harmonised across different IT systems.

Most tabs open to a list view, displaying the activities or items. In many cases, the activities when opened or edited may contain additional lists of items such as participating organisations, attendees or resources. Likewise, when creating new items, you may notice that first the basic information such as title or location should be saved and only then will it be possible to add the list of participants or organisations.

The functionality for these lists are explained in the section **List functionalities**. How to complete the details is explained under the various **How to** pages.

Who can manage or view the project?

For KA2 projects by default the person who is indicated in the application form as the project contact of the coordinating organisation, will have access to view and edit the project details. Partner contacts may also be given view access to the project.

For KA201 indicated as schools only, the organisations contacts may have view or edit access to their projects and view access to the coordinators project. The coordinating organisation's contacts may have view access to all partner organisations.

Project Management and Implementation

The **Project Management and Implementation** screen allows to record costs for project management activities such as: planning, finances, coordination and communication between partners.

There are two main sections:

- Lifelong Learning Programme:** A table with columns "Grant Agreement No" and "National ID". It lists two grant agreements: "2013-1-GR1-ERA10-04983" and "2013-1-GR1-ERA02-04900".
- Erasmus+:** A table with columns "Grant Agreement No", "National ID", and "User's role in project". It lists one grant agreement: "2014-1-UK01-KA201-000229_3". The user's role is "beneficiary (Edit Access to Project)".

A red callout box with the text "Click on the project reference" points to the grant agreement number "2014-1-UK01-KA201-000229_3" in the Erasmus+ table. A red circle with the number "1" is placed next to the grant agreement number.

2. Click on the Project Management and Implementation tab.

The screenshot displays the 'European Commission Mobility tool' interface. At the top, a navigation bar includes tabs for 'Details', 'Organisations', 'Contacts', 'Project Management and Implementation' (highlighted with a red box and arrow), and 'Transnational Project Meetings'. Below this, the project identifier 'Project 2014-1-UK01-KA201-000229_3' is shown, followed by a secondary navigation bar with tabs for 'Details', 'Organisations', 'Contacts', 'Project Management and Implementation', 'Transnational Project Meetings', and 'Intellectual Outputs'. A third navigation bar lists various project components: 'Multiplier Events', 'Learning, Teaching and Training Activities', 'Special Needs Support', 'Exceptional Costs', 'Exceptional Cost Guarantee', 'Budget', and 'Reports'.

Select the organisation for which the PMI costs are being allocated.

This section contains information about the contributions to the participating organisations' activities such as project management (planning, finances, coordination and communication between partners, etc.) according to the specific project contracted duration.

The PMI's entered into National Agency's project management system EPlusLink will appear in this list detailing only the participating organisation.

All additional information will have to be added by editing the selected PMI item. The total approved amount for this item can be viewed in the budget summary screen.

The total adjusted amount for all organisations should not be greater than the approved amount or less than 80% of the approved amount.

About the tool

Mobility Tool is the system for the management of mobility projects that received an EU grant under the Lifelong Learning and Erasmus+ programmes. The Tool is developed by the European Commission for you, as beneficiaries of these projects.

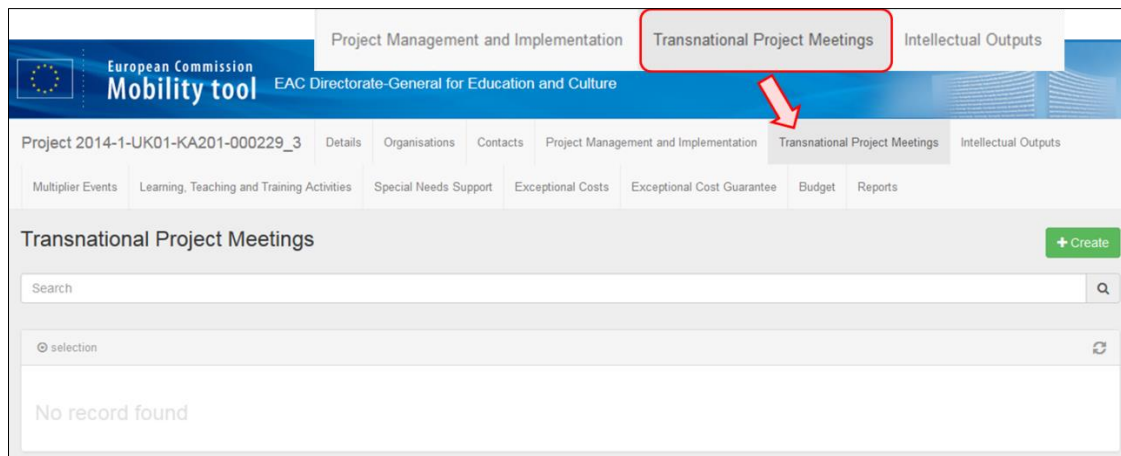

In the Mobility Tool you will be able to provide all the information on your projects, identify participants and mobilities, complete and update budget information, generate and follow-up participant reports and generate and submit your own report(s) to your National Agency.

2. Open the "Transnational Project Meetings tab".

The **Transnational Project Meetings** or TPM's entered into National Agency's project management system EPlusLink will not appear in this list, on project creation and will not be updated. The total approved for TPMs can be viewed under the Budget tab.

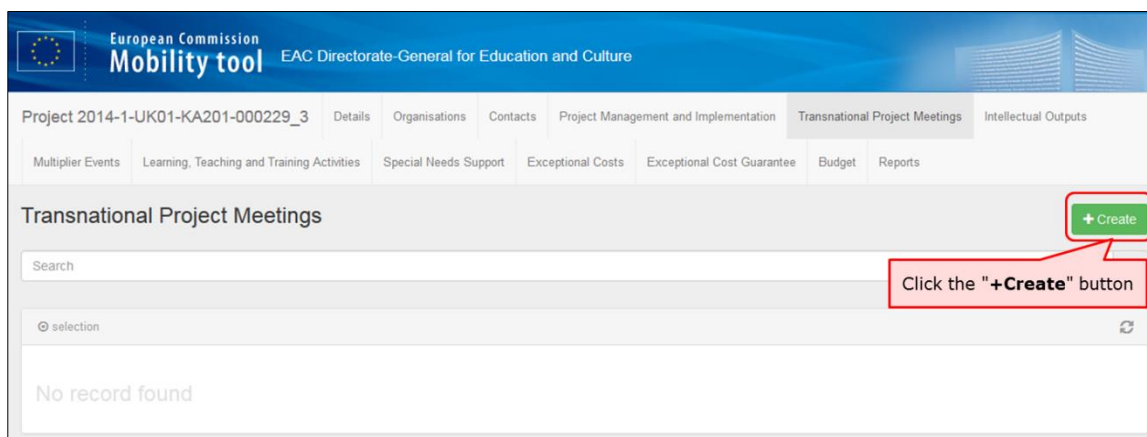

These entries will have to be added along with the number of attendees and total cost for each meeting. The attendees numbers should be grouped according to the travelling distance or **distance band** and costs.

If the project is a "KA201 - Strategic partnerships for school education" flagged as "Only schools?" the sending organisation is always the Beneficiary Organisation.

3. Click the "+Create" button.

To create a new meeting indicating its specific objectives within the more general purpose of project coordination and implementation, click on the **+Create** button.

4. Fill in the meeting details.

Complete the details (blank fields) as applicable for the meeting.

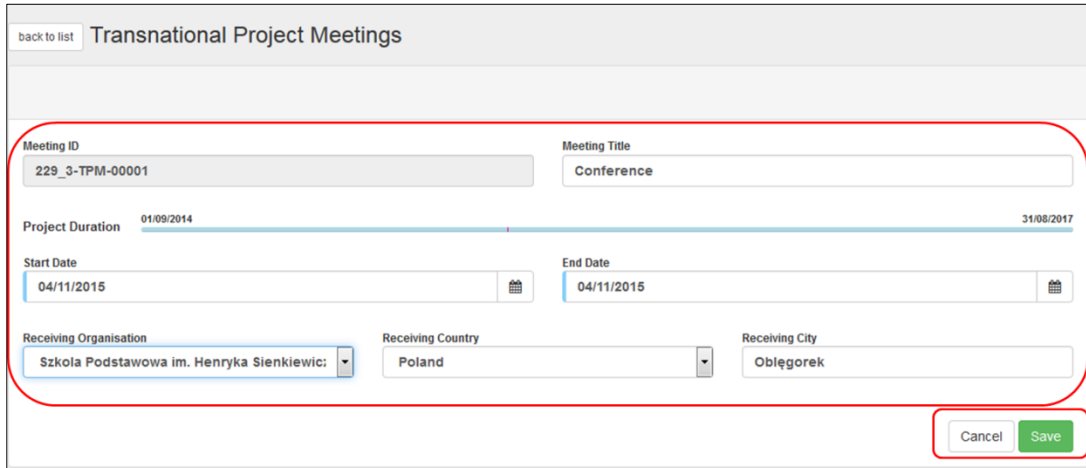

Add a meeting title, select the receiving organisation (receiving country and receiving city will be filled in automatically) and change the start date and the end date. The meeting must fall between the project start and end date indicated on the **Details** tab.

For **S2S** projects the sending organisation can only be the beneficiary organisation.

After filling in all the mandatory fields the **"Cancel"** and **"Save"** button will appear.

 The receiving organisation cannot be the same as the sending organisation in a given meeting. An exception is made in the following case:

The receiving organisation is allowed to also send their own participants and pay them for travel expenses if the travel distance is at least 100 km (≥ 100 km).
