str. 35 – Kombinacija studija i stručne prakse

Student mobility:

- a **study period** abroad at a partner higher education institution (HEI);
- a **traineeship (work placement)** abroad²⁰ in an enterprise or any other relevant workplace²¹.

A study period abroad may include a traineeship period as well. Such a combination creates synergies between the academic and professional experience abroad and may be organised in different ways depending on the context: either one activity after the other or both at the same time. The combination follows the funding rules and minimum duration of study mobility.

ONLINE LINGUISTIC SUPPORT

By signing the Erasmus Charter for Higher Education, HEIs commit to provide all the necessary support to participants in mobility activities in terms of linguistic preparation. In this regard, an online linguistic support will be gradually implemented in the course of the Programme for all mobility activities between Programme Countries lasting two months and longer. Such online support is made available by the European Commission to selected students, with a view to assess their competence in the language they will use to study or carry out their traineeships abroad. This tool will also offer them, where necessary, the possibility to improve the knowledge of the language before and/or during the mobility period.

Participants with a level of at least B2 in the main language of instruction or work may choose to follow an OLS course in the language of the receiving country, if available. The provision of linguistic support shall be based on mutual trust between sending and receiving institutions. The recommended level of language competence is stated in the Inter-institutional agreements and the Learning agreements, and thus agreed upon by the three parties. With Erasmus+, sending HEIs commit themselves to ensure that their outgoing students have the requested language level, and such mutual agreement should be sufficient. Sending higher education institutions are responsible for providing their students with the most appropriate

linguistic support, be it through OLS or any other approach that can be funded through the organisational support, to ensure that their students get the recommended level agreed with the receiving institution by the start of the mobility. Therefore, sending HEIs are not required to send the results of the OLS language assessment to the receiving institutions. It is up to the students to decide whether they agree to disclose the results of their OLS language assessment to the receiving institution or not.

str. 40 – Dodatne informacije za mobilnost između programskih i partnerskih zemalja

ADDITIONAL INFORMATION FOR MOBILITY BETWEEN PROGRAMME AND PARTNER COUNTRIES

The budget available for mobility between Programme and Partner Countries is divided between different regions of the world in 12 budgetary envelopes and the size of each budgetary envelope is different. Further information on the amounts available under each budgetary envelope will be published on the National Agencies' websites.

Due to the requirement to carry out mobilities with countries in regions 6, 7, 8, 9, 10 and 11²⁸ that contribute to development assistance, mobility for short-, first- and second cycle students is limited to inbound mobility from Partner to Programme Countries²⁹. Outbound mobility towards these regions is only available at doctoral level and for staff.

str. 41 – Kriteriji za dodjelu

The National Agency may fund mobilities with a Partner Country that is ranked lower in the regional ranking, when it is necessary to ensure geographical balance within that region, as defined by the geographical targets mentioned above.

The National Agency is not obliged to fund all the mobilities requested for a particular Partner Country if the request is considered excessive with respect to the budget available.

Where possible and in addition to the overarching criteria of order of merit and geographical balance, the National Agency will seek to spread the available budget widely to avoid dominance of a small number of HEIs. The National Agency will strive to be as inclusive as possible, maximising participation of stakeholders without undermining quality, geographic balance or the minimum critical size per mobility project to ensure feasibility.

str. 263 – Erasmus povelja u visokom obrazovanju (ECHE)

HEIs must respect all the provisions of the ECHE during the implementation of the project. Their compliance will be monitored by the National Agency, which will base their monitoring strategy on the ECHE Monitoring Guide (https://ec.europa.eu/programmes/erasmus-plus/sites/erasmusplus/files/library//eche-monitoring-guide_en.pdf), a new manual that aims to provide a set of agreed guidelines and examples of good practice in the area of ECHE compliance monitoring and enhancement. Higher education institutions applying for and participating in Erasmus+ projects are advised to consult this guide for information on priority areas of ECHE compliance, as well as on available tools, guidelines and web-links.

Violation of any of the ECHEs principles and commitments may lead to its withdrawal by the European Commission.
